About Us

Empowering Minds, Igniting Creativity

BTS Technology Ltd. established in 2005, had a clear vision: to become a leading, multi-dimensional One-Stop Web & IT Solutions provider. We focus on high-end strategic solutions and aim to evolve into a top IT-enabled service company.

We have the full capability to provide Web & IT Solutions and Digital Marketing services for small and medium-sized businesses globally, prepared for challenges in delivery, quality, and measurable results.

Our team's expertise is central to everything we do. We are committed to creating excellent interactive experiences—designing, executing, and managing online strategies that complement your brand and improve your ROI.

Our talented professionals look forward to interacting with your organization, forming a long-term business relationship and partnering with you on a mutual growth path.

Technology isn't about the latest gadgets or apps. It's about what these things do for people. It's about bringing people together and **making lives better**.

Story

20+

Creating people-friendly experiences through the combined efforts of our researchers, strategists, designers, and developers.

100+

Since 2005, we've shaped, optimized, and launched these digital products.

10+

Celebrating a decade of innovation in UK’s digital landscape.

BTS Tech was founded on the belief that every business deserves to rise above the digital noise.

We’re a passionate team of innovators and strategists dedicated to crafting powerful online experiences that connect, engage, and deliver real results.

Our expertise covers cutting-edge Web Solutions, Web Hosting Services, Strategic Branding, UI/UX Design, and Effective Digital Strategy. We understand the nuances of diverse markets and proudly serving clients in the UK, Netherlands, Canada, and Bangladesh.

We partner with both startups and enterprises, helping them scale, adapt, and thrive in the digital age. At BTS Tech, we are committed to turning your vision into a successful online reality across the globe.

Approach

Approach

We immerse ourselves in your vision, understand your journey, and strategically pave the best path to your goals.

Diving deep into your needs, we take a holistic approach, blending creativity and technology to craft resonant solutions.

From concept to execution, we navigate the digital landscape, leveraging cuttingedge tech to fuel your growth.

Leadership

Leadership

Dr. Abdul Kader, Managing Director

With over 27 years of industry experience in the IT Sector, he brings deep technical expertise and a strong leadership vision that have shaped BTS Technology Ltd. into a reliable and innovative tech company.

Throughout his career, Abdul Kader has been at the forefront of advancing network technologies and digital infrastructure across Bangladesh. His extensive experience in ISP operations, system management, and enterprise connectivity has laid a solid foundation for BTS Tech’s excellence in delivering secure, scalable, and performance-driven digital solutions.

Under his guidance, BTS Technology Ltd. continues to grow as a dynamic IT company recognized for its commitment to quality, client satisfaction, and technological innovation.

Leadership

Hameem M Kader, Director

Hameem plays a key role in leading the company’s technical and operational direction. As a passionate project manager with a strong background in web development, IT management, and server administration, he continues to grow and evolve with the ever-changing technology landscape.

With practical experience in web development and server management, Hameem is dedicated to maintaining the highest standards of reliability and innovation within BTS Technology Ltd. His forward-thinking approach and commitment to continuous improvement have contributed significantly to the company’s growth and reputation in the IT and web hosting industry.

Beyond his operational duties, Hameem is an active contributor to the tech community and also served as a core contributor for WordPress 6.8 "Cecil".

Our Team

Story

Developers

BTS Tech’s skilled team of 6 developers specializes in crafting powerful, secure, and scalable web and mobile applications. With a focus on performance and innovation, we transform business ideas into cutting-edge digital solutions that deliver real impact.

UI/UX Design Team

BTS Tech’s 2 creative UX/UI designers build intuitive and visually engaging interfaces that enhance usability and strengthen brand identity—ensuring every click, tap, and scroll feels seamless.

Marketing Team

Our 2 marketing experts at BTS Tech design data-driven strategies and campaigns to amplify brand visibility, generate leads, and help clients connect meaningfully with their audience.

Client Support Team

BTS Tech’s 2 dedicated support engineers maintain smooth operations, provide prompt technical assistance, and ensure continuous uptime—keeping client systems running efficiently around the clock.

BTS Tech Team Overview

BTS Tech operates with a dynamic blend of innovation and precision. Our 6 developers bring deep technical expertise across modern technologies and frameworks. They are supported by 2 UX/UI designers who focus on delivering engaging, user-centered experiences.

Complementing them, our 2 marketing professionals drive business growth through strategic branding and digital outreach, while 2 client support engineers ensure reliability and service excellence.

With startup agility and enterprise-grade discipline, BTS Tech delivers end-to-end digital solutions for forward-thinking businesses across Bangladesh and beyond.
